

Scholarship Management Resources

SCHOLARSHIPS MADE EASY!

We do the administration while you make an impact.

Scholarship Management Resources provides customized scholarship programs for businesses, foundations, and individuals across the country.

From HR benefits to creating a talent pipeline...
SMR can help you accomplish more!

Personalized and dedicated

You'll get a secure, fully-tailored and branded, mobile-friendly application and web page. We also offer an independent selection committee to ensure scholarship awards are chosen in an unbiased and fair manner.

We believe in good communication

We'll make sure students are eligible and let them know whether or not they received a scholarship. The money part? We'll directly distribute funds to each college or university on your behalf.

We'll answer the phone (or email)

Got a question? We offer responsive customer service for both clients and applicants.

Experience Matters

We've been doing this a while. With over 30 years in scholarship management and nearly 70 years in fundraising for higher education, we kinda have this thing down.

Scholarship Management Resources (SMR) is a service of The Ohio Foundation of Independent Colleges. Programs can be created with the specific goal of supporting company employees or their dependents, or designed to build your intern and full-time talent pipeline.
